NEWS RELEASE

## **Bob Khosropur Brings Claims Expertise to Narragansett Bay Insurance**

**PAWTUCKET, RHODE ISLAND – March 9, 2009**

Narragansett Bay Insurance Company announced that Bob Khosropur has joined its leadership team as Chief Claims Officer. Bringing broad experience in personal lines insurance and catastrophe claims handling and management, Khosropur is experienced in building successful claims departments for insurance companies.

As Vice President of Claims for Privilege Underwriters, Khosropur was charged with building a claims organization from the ground up, including the installation of the claims processing system, the hiring and training of all claims staff, and the establishment of agreements with vendors in order to provide top quality claims service.

During his 22-year insurance career, he also worked in several management positions within Allstate ranging from district claims management to catastrophe management to Home Office strategic sourcing. In 1994 he was responsible for 60 field claims adjusters working to handle claims in response to the Northridge earthquake in California. Based upon the quality and volume of the work handled by his team, Khosropur was given overall leadership responsibility for the Northridge Field Claims Operation, which included a total of 600 field staff.

In joining Narragansett Bay Insurance, Khosropur remarked, “I am excited about joining an organization that is committed to becoming an innovative market leader in homeowners insurance. I look forward to working with Vice President of Claims Paul Liberty and the other consummate professionals at NBIC to continue to streamline the claims process.”

Geoff Hunt, Executive Vice President of Narragansett Bay Insurance, commented, “Bob’s addition to our leadership team demonstrates our commitment to high quality service and responsiveness to losses and catastrophes for both our independent agents and the homeowners we insure.”

A graduate of Goddard College of Plainfield, Vermont, with a BA in Chemistry and Philosophy of Science, Khosropur has been committed to furthering his education, having received a Six Sigma Black Belt in Quality Assurance Sciences. He has served as a member of The Advisory Board of the Institute of Insurance and Risk Management and a member of the Nevada Insurance Council. He also has served as a Rotating Catastrophe Staff and Field Manager with the most notable tours being Hurricane Andrew and the Northridge Earthquake.
